Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. DETAILED ACTION

Election/Restrictions

1. Newly submitted amendments to claims 1-6,8-9, 11-15, and 17-20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Originally filed claims 1-6,8-9, 11-15, and 17-20 are directed towards a method and system in which advertisements are categorized as to whether they are overridable or non-overrideable. When an advertiser requests to replace an advertisement with a different advertisement, a check is performed to determine if the original advertisement is able to be overridden and the original advertisement is replaced when it was categorized as overrideable. Therefore, replacement of an advertisement is dictated by the category assigned to the advertisement and can occur during any scheduled time slot.

In contrast, newly amended claims 1-6,8-9, 11-15, and 17-20 recite a separate and distinct invention in which time slots are categorized as being overridable or non-overridable. When an advertiser requests to replace an advertisement with a different advertisement, a check is performed to see if the time slot is able to be overridden and the replacement of the advertisement is dictated by the category of the timeslot.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-6,8-9, 11-15, and 17-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
